EDUCATION

University of City

Bachelor of Computer Science and IT Management

City, Country

Jul. 2023 – Nov. 2025

PROJECTS

Malaysian Mania | *Flask, Jinja, Python, JavaScript, HTML/CSS*

Mar. 2024 – Jun. 2024

- Developed a web-based implementation of Family Feud for my Malaysian club's game night event.
- Implemented Flask and the Jinja Templating Library with HTML/CSS and JavaScript for the front-end.
- Developed a database by using Python to process data, which was stored and organised using CSV files.

Space Plates | *JavaScript, HTML/CSS*

Aug. 2024 – Aug. 2024

- Designed and built a food delivery app that takes inspiration from Tinder for a Hackathon.
- Implemented Javascript and HTML/CSS for the front-end.
- Building this project served as my personal introduction to hackathons.
